DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 13-16, 25 and 27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 13-16 appear to be properly dependent from claim 12, however, these claims all depend from claim 11.

Claims 25 and 27 have a dual dependency on claims 1 and 24. This is improper. Correction is required since it is not possible to determine the scope of the claims.

Double Patenting

2. Claims 12-16 are objected to under 37 CFR 1.75 as being a substantial duplicate of claims 28-32. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Allowable Subject Matter

3. Claims 1-11, 17-24, 26 and 28-32 allowed.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Each of these patents sets forth the state of the art pertaining to optimization of image properties.
